

# Rui Miguel Pereira

## Front-end Developer

I'm a focused and motivated worker with a background in Biology, currently with more than 3 years of experience mainly coding on the FrontEnd and an ongoing objective to keep growing my career in Web Development and related technologies. As your Developer you can count on me to deliver high-end solutions, well crafted finished products that are tailored to your specifications, onto which I will pour my dedication and knowledge. I'm eager to learn new things, to do each day a better job than the day before, and help the company grow and achieve goal after goal.

HTML

Javascript

Jquery

NodeJS

ReactJS

## LANGUAGES

Portuguese

Native or Bilingual Proficiency

English

Full Professional Proficiency

## WORK EXPERIENCE

### Front-end Developer

#### Premium Rate

01/2021 - Present

##### Tasks

- My current day-to-day requires cross-browser/OS bug fixing, consumption of REST APIs on the Frontend, development of data-intensive Dashboards with grids and graphs, implementation of common systems like login, registration, password, and email recovery via text messaging or email, etc. I develop Javascript/TypeScript, preparing data to be viewed or presented on the page, dealing with CSS styling implementation from scratch or fixing across browser versions, including Responsive CSS and media queries and testing on mobile devices. HTML scaffolding mainly with Bootstrap, etc. Code is maintained via GIT.
- On the server I occasionally work with PHP in a limited fashion, I have implemented some nodeJS for small processes, cron jobs, etc.

### Manager Marketing & Sales

#### Turbodiscover Lda

01/2018 - 05/2021
